no

Reason for Failure

Inspections are free of charge excluding freight. If an order is not placed for repair, the unit can be returned disassembled or it can be scrapped. Once disassembled and inspected, the unit cannot be reassembled unless a repair order is placed, as some parts (i.e. bearings) will no longer be acceptable for use after disassembly. If an order is not placed within 30 days of quotation, and we have not been notified to ship the item back, the item may be scrapped.

The repair will be quoted through **FASTENAL.**

Warranty for workmanship and material only is 3 months after installation. The warranty will not exceed 6 months after shipment. Warranty work is to be completed by Ekstrom Carlson only at Ekstrom Carlson's facility. Any work completed by others to the equipment without the written authorization of Ekstrom Carlson voids the warranty in its entirety. Freight charges, in and out charges, time lost, production losses, etc... are not included in our warranty. No other warranty is expressed or implied.
