Patent applied

# KOMET MicroKom *BluFlex*® 2

## New and improved – the second generation

Besides its peerlessly innovative qualities and unparalleled precision, the second, completely redesigned version of our KOMET MicroKom *BluFlex*® system boasts a sophisticated, extremely high-contrast OLED display and is exceptionally easy to use.

### BENEFITS for you:

- Display resolution precise to the nearest micrometre: 0.001 mm in diameter
- The precision adjustment head can be radially adjusted and clamped using just one hex key
- Sophisticated, high-contrast OLED display on the precision adjustment head itself
- Display can be rotated 180°
- Easy to operate on the touch display itself
- Additional Bluetooth® low-energy interface that allows information to be displayed easily on a conventional smartphone
- Higher speeds due to integral part balancing
- Highly sensitive adjustment allows for a precise feed
- Absolute position measuring system – the absolute and relative positions of the slide are displayed at every switch-on
- Universal ABS® interface
- Batteries are easy to replace
- Fully compatible with the old system variants
